

98 PER CENT OBEY STRIKE CALL

Tariff on Wheat Is Approved

Senate Votes Duty of 30 Cents Per Bushel Despite Stiff Opposition From Democratic Members.

Rate on Flour Boosted

Washington, July 1.—By a vote of 38 to 12 the senate approved today a tariff of 30 cents a bushel on wheat.

Democratic leaders declared during the debate which preceded the vote that this rate would cost the American people \$100,000,000. Senator McCumber, republican, North Dakota, in charge of the measure, stating frankly the purpose of the rate was to keep above the world level the price of northern spring wheat from the Dakotas and Minnesota, said he did not think the tariff proposed would be carried on to the consumer, but even if it was it would not amount to \$2 a year to each consumer.

Split on Final Vote

Minority leaders swelling through a four-hour fight against the wheat rate, talked most of the time to practically empty seats. Despite the fight, however, the minority split on the final vote. Senators Jones of New Mexico and Kendrick of Wyoming, voting with the solid republican majority for the committee rate, which is an increase of 5 cents over the house rate, but a decrease of 5 cents from the existing emergency tariff duty.

With the wheat fight out of the way, the senate made unusually rapid progress on the bill, approving several series of committee amendments. The first to be agreed upon was a duty of 78 cents per 100 pounds on flour, an increase of 28 cents over the house rate. Other rates approved included:

Boost Rate on Potatoes

Irish potatoes, 58 cents per 100 pounds, house rate, 2 cents; dried, 2.4 cents a pound, house rate, 3.1 cents; potato flour, 3 cents a pound, house rate, 1.12 cents.

Tomato paste, 45 per cent ad valorem, house rate, 28 per cent; 15 per cent, house rate, 10 per cent.

Onions, 1 cent per pound, house rate, 75 cents per 100 pounds.

Coconuts were transferred to the free list, but coconut meat, prepared was made dutiable at 4 cents a pound against the house rate of 4.12 cents.

Rates on Prepared Fruits

Were increased generally over both the house figures and those originally recommended by the committee.

Whisky Withdrawals Fall Off for Year

Washington, July 1.—Whisky withdrawals fell off nearly 7,000,000 gallons during the past fiscal year, according to a statement issued today by Prohibition Commissioner Haynes.

Reviewing the fiscal year, Mr. Haynes reported that less than 3,000 gallons of whisky were withdrawn as compared with 9,996,122 gallons the previous year and less than 17,000,000 gallons of alcohol and other distilled spirits compared with 85,388 gallons withdrawn during the fiscal year 1921.

"Nearly 1,500 cases were reported," he said, "by general prohibition agents and fines amounting to \$2,159,410.39 were imposed by federal courts. Three and one-half million dollars worth of bonds were placed in suit, or proceedings begun. Reductions in rentals and disposition of seized property in the amount of \$208,832.50 were effected, and an additional saving of \$156,900 otherwise effected. Under the narcotic laws over 2,200 violations were exposed, resulting in 175 per cent convictions and approximately \$70,000 in fines. Sentences in both prohibition and narcotic cases were uniformly much more severe.

"Important changes took place. Enforcement work has been vested in state directors and a mobile force of general agents under 18 divisional chiefs directed from Washington created.

American Fuel Camp in Mexico Held by Bandits

Washington, July 1.—The Palo Blanco camp of the Penn-Mexican Fuel company near Tuxtla, Mexico, has been raided by Mexican bandits under a Gen. Larraga and the property is held for 10,000 pesos ransom, according to a message from Consul Shaw at Tampico to the State department sent late yesterday. The payment was demanded by July 1, but no details of the raid were available, the message added.

The Penn-Mexican Fuel company is an American concern. The message did not say whether any Americans had been held by the bandits.

Quiet at Colorado Mines

Denver, Colo., July 1.—Latest reports this morning indicate that the night passed quietly without disturbances of any kind in Colorado coal fields, it was announced at the office of Col. Patrick J. Hamrick, state adjutant general.

National guard troops and state rangers are encamped at their home stations or at Frederick, in the center of the northern Colorado field. Three units are at the latter place.

New York Woman Is Candidate for Judge

Miss Ruth Taylor, director of the department of child welfare of Westchester county, New York, has been designated by the republican party as candidate for judge of the children's court of that county. The term is for six years and carries an annual salary of \$10,000.

Clashes Mark Conference on Miners' Strike

Both Sides Refuse to Make Concessions to End Walk-out—Harding Threatens U. S. Intervention.

By ARTHUR SEARS HENNING

Washington, July 1.—After being admonished by President Harding to settle their dispute, in default of which he said the government would intervene to avert a fuel famine, 50 coal operators and mine union officials met in the hottest day so far this summer trying to find a basis for negotiations to end the coal strike.

When the conference called by the president adjourned tonight it appeared that little, if any, progress had been made in getting together on a mode of procedure.

The session, which was held in secret at the suggestion of the president, was marked by a series of clashes between John L. Lewis, president, and other officers of the United Mine Workers on the one hand and the operators of the strike towns in the bituminous and anthracite fields on the other.

Union Leaders Firm

The union leaders held to their contention that the only satisfactory basis of settlement is either a national wage agreement or an agreement covering the central competitive fields. The operators, with equal obstinacy, held that they would not be justified in making any but district or state agreements.

The conference is to meet again tomorrow and Monday, and on July 4, if necessary, in the effort to find a common ground.

"We wish you who best know the way to solution to reach it among yourselves in a manner to command the sanction of American public opinion," said the president. "Failing in that, the servants of the American people will be called to the task in the name of American safety and for the greatest good of all of the people."

Urges Permanent Solution.

While a settlement of the strike, enabling full resumption of coal production is the immediate task of the conference, the president urged the miners and operators to take steps at this conference toward a permanent solution of the problem of coal production and distribution.

"The government," said the president, "has no desire to participate in a temporary makeshift. For the good of all the people, the government craves a way to permanent stability, tranquility and periods of employment at just wages, righteous freedom for workers and righteous freedom for owners."

Omaha City of Home Ownership

Home ownership is the supreme test of confidence in a city.

When a man identifies himself with a city by buying a home he gives proof of his faith in that city.

He does more—he acquires a personal interest in its development.

OMAHA is fourth city in home ownership in America.

This has been brought about chiefly by the efforts of the members of the Omaha Real Estate Board, and Omaha's loan and building associations.

In the "Want" ad section of today's Omaha Bee you will find many invitations from Realtors to become an Omaha home owner. Turn to the "Want" Ad pages in the Sport Section.

U. S. Senate Criticized by Norris

Nebraskan Takes Members to Task for Holding Up Work on Wilson Dam at Muscle Shoals.

Keeping Men From Work

Washington, July 1.—(By A. P.)—The senate was taken to task today by Senator Norris, republican, Nebraska, for concurring in the house amendment to the army bill delaying until October 1, beginning of new work on the Wilson dam at Muscle Shoals, Ala.

In a brief speech, he reminded the senate that its original proposal would have permitted 1,000 or more men to have begun work today, and declared its confirmation of the house action meant another year's delay of work on the project and prevention of idle laborers in the south from obtaining employment.

The senate's original proposal, Senator Norris asserted, also would have saved "a couple of more million dollars for the taxpayers" as well as preventing the "great fertilizer trust" from "hammering down for another year" the Alabama farmers and continuing, during that time, the "domination over the downtrodden farmers of America."

Blames Propaganda

The Nebraska senator attributed the senate's action in yielding to the house, to a "great propaganda" that "carried it off its feet," and said it yielded because of a "combination of men who were afraid 'Henry Ford's offer might be lost and because of men who did not want anything done." The senate rolled back, he said, showed the former group was "assisted by every millionaire in the senate."

"This is the first of July," Senator Norris continued. "It is the day when, had it not been for the postponement of the senate for the continuation of the work at Muscle Shoals, a thousand or more men who are now idle, would have been put to work down in Alabama."

Cripple Shoots Soldier Friend

Army Man Wounded in Throat as Pistol Is Being Shown Him.

John Tyree, a Fort Omaha soldier, was shot in the throat shortly after 6 Saturday night by a companion in the Edwards hotel, Sixth and Davenport streets. He may die, doctors say.

The companion, Ben Gibson, a cripple without legs, was arrested, although Tyree told police "Ben was only showing me a new automatic he bought. Don't blame Ben."

When police arrived at the hotel they found Gibson had climbed to a chair and was holding the head and bullet-punctured throat of Tyree.

Gibson is a familiar sight on the streets of the city, making his way about with the aid of a low, flat-topped wheel chair.

Canadian Authorities Not to Molest Auto Rum Exporting

Regina, Sask., July 1.—Liquor exporters may continue to transport drinkable automobiles across the international border unmolested by Canadian authorities under a ruling handed down by the appeals division of the Saskatchewan supreme court.

The provincial act forbidding the export of liquor except by common carrier, rail or water, from Saskatchewan, which itself is a "dry" area, is outside the jurisdiction of the Saskatchewan legislature, the court decided.

Crime Wave in Berlin Now Highest in Last 10 Years

Berlin, July 1.—The Berlin crime wave was the highest since 10 years ago in April this year, according to statistics issued by the police headquarters.

There were 250 cases of street robbery and 40 cases of manslaughter. Berliners are planning to organize an effective self-protection by means of hired private detectives and by procuring for themselves a permit to carry arms.

Mrs. Charles Gibson Dies.

Boston, R. I., July 1.—Mrs. Charles D. Gibson, mother of Charles Dana Gibson, the artist, and Langdon Gibson, the Arctic explorer, died suddenly last night after an attack of acute indigestion. She was born in Boston 80 years ago and was a direct descendant of Governor William Bradford. Besides her two sons, Mrs. Gibson is survived by a daughter, Mrs. Daniel W. Knowlton, of Washington. She had made her home in this town for the last three years.

Frisco Tong Head Killed.

San Francisco, July 1.—With Chung Gee Hing, president of the Sing Tong, a Chinese gang, was shot and killed yesterday afternoon by a police officer. The victim was a Chinese, dangerously wounded and six others badly beaten in a pistol fight in which more than 40 shots were fired, the police were watchful today, fearing recurrence of a tong war.

Continued to Die Because Master Alien

Lansdale, Pa., July 1.—"Dick," a handsome dog of St. Bernard and mastiff parentage, who was condemned to death because his master was unnaturalized, has a new lease on life today, having received an eleventh hour reprieve from Magistrate Osborne.

Recently someone made a complaint against "Dick," citing the state law against the ownership of dogs by aliens, and he was ordered shot.

Dog lovers protested and at the hearing, before Magistrate Bourse residents of the countryside crowded the courtroom to plead for Dick's life. At the conclusion of the hearing tears were in many eyes, particularly those of the two little daughters of Jacob Silverman, Dick's owner.

The magistrate ruled that the dog be given into the custody of the Society for the Prevention of Cruelty to Animals.

Silverman was fined \$25 for having the dog in his possession.

De Valera Heads Insurgent Band in Dublin Fight

In Charge of Insurgent Force in Dublin Holding Out Against Free State Troops.

Cork, July 1.—(By A. P.)—There seems good reason to believe that the republican forces are mobilizing this evening preparatory to a move to take possession of the city and occupy strategic points. Several buildings, including the general postoffice, are indicated as likely to be taken over by the insurgents.

Belfast, July 1.—(By A. P.)—The big main line bridge, two miles south of Drogheda, has been blown up, severing railway communication between Belfast and Dublin.

Dublin, July 1.—It is reported on good authority that Eamon De Valera is in command of a detachment of insurgents which is holding out against the government troops in Sackville street, several blocks east of the Four Courts.

More than 50 insurgents who had been holding out in the Capel street area surrendered to the government forces at 2 o'clock this morning and were marched to the Wellington Barracks, says a statement issued by the national army headquarters. Capel street is in the vicinity of the Four Courts building, which is still burning.

50 national troops were buried in the debris when the explosion rocked the Four Courts yesterday, says an official communication issued late last night. All of them were wounded, 30 of them severely. Nobody was killed by the explosion, which the communication charges, was caused by the irregulars setting off a mine in the basement of the central hall.

The provisional free state government turned today to the task of clearing out the remaining nests of insurgents, following the fall of the Four Courts, the chief stronghold of the anti-treaty forces.

The surrender this morning of more than 50 rebels who had been holding out in the Capel street area was hailed as evidence that the morale of the republicans had been weakened by the yielding of Rory O'Connor and Liam Mellows, two of their strongest fighting leaders.

Plan of Action.

The menace still confronting not only Dublin but the nation was recognized, however, and the daily minister of defense, in a proclamation to the troops of the national army declared:

"We put our hand in this fight in defense of the people's will, and with your aid we will see it to a successful issue."

The plan of action against the irregulars, who have established themselves in hotels and other premises, will probably assume the form of an encircling movement with intense fields of action in certain areas.

The total casualties in the three days' fighting have not yet been ascertained, but it is estimated they will not greatly exceed 100, the fatalities being placed at about 40.

Trouble Brewing in South.

London, July 1.—(By A. P.)—Reduction of the Four Courts, chief rebel stronghold in Dublin, seems to have justified the belief that the provisional free state government can cope with the situation.

Trouble is believed to be brewing in the south.

Republican sympathies are notoriously widespread in "rebel Cork" and it will be no surprise if the republicans rally in arms against the provisional government.

Authorities to Test Sanity of Self-Confessed Slayer

Denver, July 1.—Intervention of city authorities in the case of Orville J. Turley, confessed slayer of Mrs. Emma Wise, rooming house keeper, yesterday afternoon will result in a jury trial to test Turley's sanity.

Following the filing of the report of two alibis, Turley was ordered committed to the state hospital for the insane at Pueblo. As final arrangements were being completed for Turley's transfer to Pueblo, Mayor Dewey C. Bailey, Manager of Safety Frank M. Downer and Chief of Police H. R. Williams presented a petition to County Judge George Luxford, which "respectfully demanded" that the question of Turley's mental state be decided by a jury.

No One Likes to Take Medicine

Dolds Lose Suit to Retain Plant of Skinner Firm

Building and Equipment Leased on Contract.

Keith Neville, receiver for the Skinner Packing company, Saturday won a hotly contested suit brought to annul a contract by which the Dold Packing company acquired the Skinner plant.

A decision given Saturday by B. H. Dunham, special master in chancery, recommends that the order of annulment be entered.

The Skinner company is declared exempt from any losses the Dolds may have suffered, but specifies the Dolds are liable for rental of the plant during their occupancy and are entitled only to a reasonable sum for improvements made by them.

Not Liable for Losses.

His recommendation in full is as follows:

"The master recommends that a decree be entered in favor of the receiver and in favor of plaintiff stockholders, annulling the contract of October 26, 1920; that said decree provide that the Skinner Packing company is not liable to the Dold Packing company for any losses suffered by it in operations under the contract; that the Dold Packing company is liable for the reasonable rental value of the premises and property of the Skinner Packing company during the period of occupancy thereof by the Dold company (which rental value shall be determined upon a further hearing and an accounting between the two companies), and that the Dold Packing company is entitled to credit for the reasonable value of such changes, alterations or improvements as have been made by the Dolds during their occupancy of the Skinner plant, and which such changes constitute betterments in said plant."

Bill of Exception Allowed.

A bill of exceptions is allowed for the Dolds to appeal the case, Federal Judge Woodrough stated.

"The master found that the contract made between the Dolds and Paul F. Skinner was unfair to the stockholders, so he was entitled to set it aside," said Woodrough. He stated the receiver was not guilty of "laches" as charged by counsel for Dold.

The receiver charged Jacob and Ralph Dold with failure to live up to the contract and with misrepresentation. Counsel for Dold questioned the jurisdiction of the court in this case and the receiver's right to fight for annulment of a contract which predated his appointment as receiver.

Bee Sting Causes Driver to Lose Control of Car

Tecumseh, Mich., July 1.—J. D. Cox of Detroit, en route to Rome City, Ind., with his family for a vacation, lost control of his car here today late this evening, the animal was still at large.

Escaping in some manner from a small animal circus that has been touring the villages of this county, the creature has spread terror throughout that part of the county.

The animal has been seen on various occasions and at one time was completely surrounded. Several shots were fired. The bullets went wild. As yet, no damage has been committed by the lion.

Dodge County Sheriff Leads Hunt for Lions in Vicinity of Uehling

Fremont, Neb., July 1.—(Special Telegram.)—A Uehling and surrounding territory, led by William Condit, Dodge county sheriff, joined in a hunt this afternoon to run down a lion that has been at large in this vicinity since early this morning. Until late this evening, the animal was still at large.

Strike Has No Effect at Local Stockyards

The railroad strike inaugurated yesterday had no apparent effect in the railroad yards of the stockyards company according to General Manager Everett Buckingham.

Stockyards officials said business at the yards was the same as on any other Saturday and there was nothing to show that a strike was on. A dozen men employed at the stockyards' roundhouse quit work, but their action is said not to have interfered in any way with the operation of the railroads at the stockyards.

Shippers are requested to keep in touch with their respective commission firms, although information has been received at the stockyards from local railroad officials that traffic will be operated as usual and livestock will be moved on schedule time.

State Finances Healthy.

Report of Treasurer Shows Lincoln, July 1.—A healthy condition of state finances is shown in the July statement issued by Treasurer Dan Crosey. There was on hand \$2,341,365.87 on hand June 1. Receipts during the month amounted to \$3,213,000; the indebtedness was \$1,381,000.

The June 1 overdraft in the general fund was completely wiped out during the month leaving a balance on hand in that fund of more than \$400,000. The capitol fund now has on hand \$2,100,000.

Dodge County Sheriff Leads Hunt for Lions in Vicinity of Uehling

Fremont, Neb., July 1.—(Special Telegram.)—A Uehling and surrounding territory, led by William Condit, Dodge county sheriff, joined in a hunt this afternoon to run down a lion that has been at large in this vicinity since early this morning. Until late this evening, the animal was still at large.

Escaping in some manner from a small animal circus that has been touring the villages of this county, the creature has spread terror throughout that part of the county.

The animal has been seen on various occasions and at one time was completely surrounded. Several shots were fired. The bullets went wild. As yet, no damage has been committed by the lion.

Chinese Game, Pung-Chow, Becomes Fad in America

New York, July 1.—Described as "the game of a hundred intelligences," Pung-chow, invented in China more than a century ago, has become a fad in New York social circles. Popularity of the game from far Cathay is spreading to Palm Beach, Hot Springs and other summer resorts.

"Pung-chow" is a combination of bridge, whist, dominoes, chess, Oriental allegory and modern warfare. It is played with 136 pieces of ivory. Four players are necessary for the playing of a set.

LABORERS JOIN STRIKE OF SHOPMEN

Desert Posts in Roundhouses, Union Chiefs Declare—Violence Report Unverified.

Picket Force Organized

Chairman H. E. Gates, of the railway shopmen's local strike committee, announced Saturday night that the walkout in Omaha, Council Bluffs and South Omaha was "almost 100 per cent effective."

Seventy-five per cent of the common laborers employed in railway shops and roundhouses stopped work and walked out with the shopmen, according to reports received at the strike headquarters.

No reports of any violence in this vicinity were received, according to Chairman Gates. Although a rumor that Italian laborers had dragged an Italian machinist who refused to quit out of the Union Pacific shops was current it could not be verified.

2,500 Strikers Registered

About 2,500 strikers registered at Central Labor temple Saturday morning and afternoon. Joseph E. Watley, secretary of the local federation of the shopmen, said, Registrations also are being made in South Omaha and in Council Bluffs.

The local strike committee heads, in a statement Saturday night, asserted that the strike was effective as follows:

Missouri Pacific roundhouse, 100 per cent.

Northwestern roundhouse, 100 per cent.

Minneapolis and Omaha, 100 per cent.

Burlington roundhouse at Gibson, 100 per cent.

Union Stockyards company, 100 per cent.

Union station, 32 men out and only two remaining.

Union Pacific shops, 98 per cent.

Organize Picket Force.

The strike committee spent the afternoon organizing picketing forces for duty Saturday night. Chairman Gates said the picketing forces were merely "skeleton" organizations as yet.

A committee was appointed to visit Chief of Police Dempsey and Police Commissioner Duggan to assure them no violence would be tolerated by the unions.

No disturbances were anticipated Saturday night, as a majority of night roundhouse employees had already declared they would not go to work, leaving the shops empty.

A rumor that a message from high shopcraft officials in Chicago, received here Saturday afternoon, said to have predicted an immediate settlement, was declared to be without foundation by union officials here.

Officers of the Union Pacific System Federation No. 105 said Saturday night that reports regarding walkouts on the Union Pacific system received thus far indicated that the strike has been successful from the standpoint of the six shopcrafts.

Strikebreakers Are Reported in Alliance

Alliance, Neb., July 1.—(Special Telegram.)—Approximately 350 members of Burlington railroad shopcrafts in Alliance walked out on strike promptly at the stroke of 10, in accordance with strike orders received by wire from Chicago union headquarters. Less than 25 men remained at work in all shopcraft departments.

Two hundred and fifty of the strikers, many of them carrying their tools, marched through the downtown streets, four abreast, the remaining (Turn to Page Four, Column Six.)

Chicago Bank President, Formerly of Omaha, Dies

Charles E. Ford, president of the Drexel National bank of Chicago and formerly connected with the United States National bank in Omaha, died Friday at his home in Chicago, according to word received by Omaha friends. Mr. Ford also had interests in Alliance and Broken Bow. He is survived by a daughter, Mrs. Hazel Wilson, and a son, Eugene E. of Chicago. Funeral services will be held at Chicago home Monday.

Women's Clubs to Meet in San Francisco in 1924

Chautauqua, N. Y., July 1.—The 1925 biennial convention of the General Federation of Women's Clubs will be held at Los Angeles, the board of directors announced today.
